REVENUES

Revenues for the Group amounted to EUR 234.5 million in the third quarter of 2015. The revenues were EUR 5.9 million (2.6%) above the comparable period last year, including a favorable currency effect of EUR 12.2 million.

In the passenger car segments the revenues increased by EUR 4.5 million (3.4 %) compared to the same quarter in 2014. Interior Systems delivered revenues of EUR 7.6 million (10.6 %) above the same period last year, due to favorable currency effects of EUR 7.6 million. Lower sales volumes in North America driven by a program reaching end of production was offset by higher sales in the both the premium car and light duty cable business in Europe. Revenues in Driveline decreased by EUR 3.1 million (-5.1 %) compared to the same quarter last year, including favorable currency effects of EUR 3.5 million. The decline in revenues was mainly due to some programs reaching end of production.

Revenues from the commercial vehicle segments increased by EUR 1.6 million (1.6%) compared to the third quarter of 2014. Revenues in Fluid Transfer increased by EUR 3.2 million (6.9%), including favorable currency effects of EUR 2.1 million. Excluding the favorable currency effects, the commercial vehicle business in Europe was the main driver behind the revenue increase. Revenues in Driver Control decreased by EUR 1.6 million (2.8%). The change in revenues reflects lower sales in both South American, Chinese and European business, partially offset by stronger sales in the North American business.

EBIT

The EBIT for the Group was EUR 11.5 million in the third quarter of 2015, a decrease of EUR -1.8 (-13.4%) million compared to third quarter of 2014. The effect of lower volumes, increased R&D activities (EUR 2.5 million) to support future growth opportunities, and operational issues on a recent product launch, were the key drivers behind the margin drop.

NET FINANCIALS

Net financials (see note 4.1) were EUR -17.0 million in the third quarter of 2015, compared to EUR -2.5 million in the same period in 2014. The increase in the net financial items was driven by higher unrealized currency losses (EUR 13.8 million), partially offset by lower interest expenses. The lower net interest expenses (EUR 1.1 million) was driven by the lower interest rate margin as a consequence of the new loan agreement signed in the first quarter of 2015.

PROFIT BEFORE TAX / NET PROFIT

Profit before tax decreased from EUR 10.7 million in the third quarter 2014 to EUR -5.5 million in the third quarter 2015, impacted by the higher negative net financial items. Respectively net profit decreased from EUR 7.1 million to EUR -3.7 million.

COMMERCIAL & OPERATIONAL UPDATE

Saving plans have been effectuated to compensate for lower sales. Overall project activity is high and a high level of research and development spend continued in the third quarter. The higher R&D spend is mainly directed towards the development of a new Automated Manual Transmission (AMT) system where a significant contract was announced in the fourth quarter of 2014. Deliveries on this new contract will start in 2017.

Business wins in the quarter amounted to EUR 17.8 million. New business wins exceeded EUR 42.8 million year to date with 20% coming from BRIC countries.
