

QUALITY POLICY

“RIGHT FROM ME, FIRST TIME”

OUR VISION:

WE DRIVE THE GLOBAL TRANSITION TO SUSTAINABLE MOBILITY.

OUR MISSION:

ON OUR PATH TO BECOMING A TRUE GLOBAL LEADER, WE PUT ENGINEERING, SUSTAINABILITY, AND INNOVATION INTO PRACTICE.

We seek to constantly improve our products, leverage our experience in cutting-edge engineering, and widen our scope to find new solutions and technologies that make mobility safer and cleaner.

Our ambition is to be second to none in all we do. This is how we unlock growth potential and create substantial value for our customers, our employees, and shareholders.

We take responsibility as a strong global team. We are committed to making a difference by developing our skill set and delivering excellent products.

WE ASSURE OUR MISSION BY:

- Developing employees’ talents and competence
- Continuously improving by using Lean principles and related tools
- Performing appropriate monitoring to assure execution and conformity of our management system, production processes and products
- Continually improving our Business Management System to achieve business excellence
- Complying with our Code of Conduct and all statutory and regulatory requirements
- Utilizing risk-based thinking throughout our processes to address risks and opportunities
- Aiming for the ultimate goal of zero defects

Linda Nyquist-Evenrud, Interim CEO & President // November 2023
