

KONGSBERG
AUTOMOTIVE

Dual Conduit Snap Fitting

Mechanical Cable Assemblies

FEATURES:

- Fastenerless attachment
- Easy serviceability
- Assembly without tools or fasteners
- Part number reductions

BENEFITS:

- Proven Snap-On Design
- Quick & Easy Assembly
- Cost-Effective

Product Description

The Kongsberg Automotive Dual Conduit Snap Fitting was designed for OEM assembly line efficiency and flexibility. It provides the ability to standardize while allowing for quick conversions; for example, when converting a push mower to a front wheel or rear wheel drive. Installation is a *snap!*, eliminating the need for hardware or tools. This fitting coordinates styling, performance, and efficiency while also reducing handle bar punch work and tooling.

As a leading developer and manufacturer of mechanical control cable assemblies focused on the unique needs of

power equipment manufacturers, Kongsberg Automotive is committed to responding to its customers with innovative solutions, proven technical excellence and world class production capabilities.
