

# Latching Drive Control

Mechanical Cable Assemblies

## FEATURES:

- Single-bolt mounting to reduce assembly costs
- Compatibility with current drive systems
- Comfortable load operation
- Ideal for front wheel drive applications

## BENEFITS:

- Two-Step Operator Sequence
- Proven Mechanical Reliability
- Staggered Release

## Product Description

Kongsberg Automotive latching drive control for walk behind mowers was designed to meet a variety of safety, convenience, and ergonomic requirements. One bail bar is connected to both the drive control and the engine brake cable, allowing for comfortable, one-hand operation. The staggered release feature allows the operator to disengage the drive control without stopping the engine.

This economical Drive Control can also be customized with styling, color, and artwork to meet exclusive product line identification requirements.

As a leading developer and manufacturer of mechanical control cable assemblies focused on the unique needs of power equipment manufacturers, Kongsberg Automotive is committed to responding to its customers with innovative solutions, proven technical excellence and world class production capabilities.
