**KONGBERG
AUTOMOTIVE
AT A GLANCE**

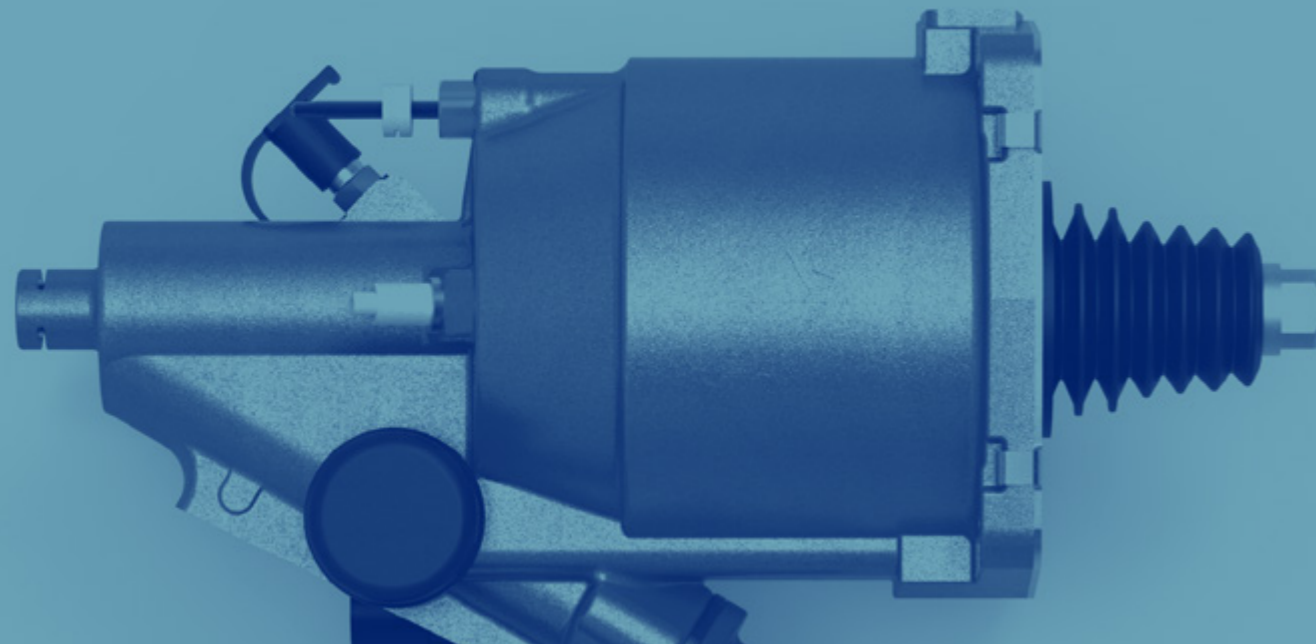

WORLDWIDE

On our path to becoming a true global leader, we put engineering, sustainability, and innovation into practice.

With revenues of approximately EUR 830 million and more than 5,000 employees in 18 countries, Kongsberg Automotive is truly a global supplier. The company is headquartered in Zürich, Switzerland and has 22 production facilities worldwide. The product portfolio includes seat comfort systems, driver and motion control systems, fluid assemblies, and industrial driver interface products developed for global vehicle manufacturers.

A LIFETIME OF SERVICE AND SUPPORT

The world's commercial vehicle manufacturers require innovative solutions that offer functionality, comfort and safety. Kongsberg Automotive's customers include a broad range of leading manufacturers worldwide.

ALIGNED WITH CUSTOMERS' DEMAND

Close follow-up of deliveries is important to customers' success. Potential deviations are therefore resolved at an early phase or eliminated through product modifications. Kongsberg Automotive follows up aftermarket sales through close contact with vehicle manufacturers and dealers, as well as end users.

Our manufacturing facilities and sales offices has a global reach, enabling us to optimize production and to be close to our customers. Kongsberg Automotive also has a global network of distributors to ensure rapid delivery to all corners of the world.

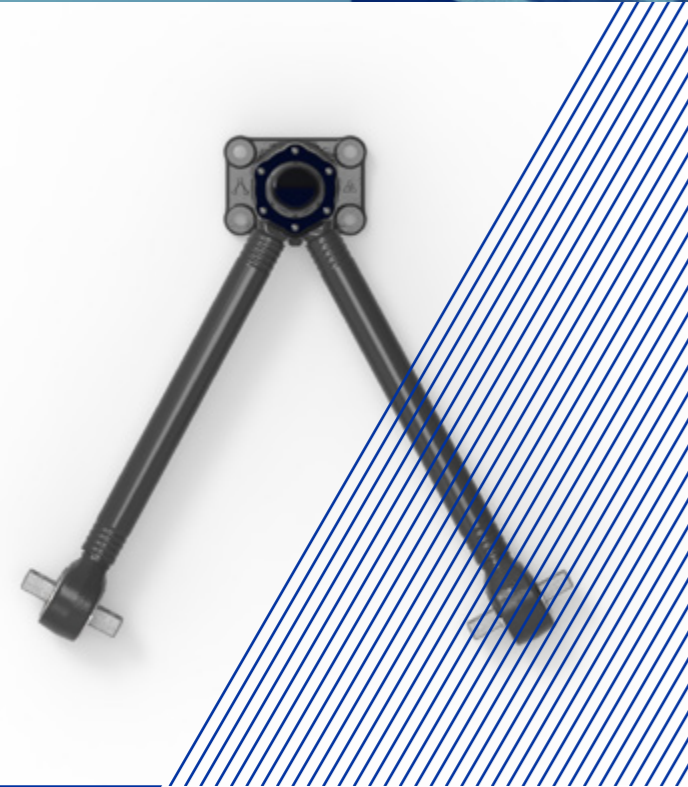

Kongsberg Automotive is providing a world-leading portfolio of differentiated services supporting our customers' products throughout its lifecycle and support with professional services to our customers within:

- > Sales and logistics
- > Product function training
- > Product installation training
- > Product repair training
- > Warranty handling

KONGSBERG AUTOMOTIVE IS THE ORIGINAL

When your vehicle left the factory, it was made with 100% original parts. Continuing to buy original parts will ensure driving safety and high repurchase value, while extending the life of your vehicle.

- > Kongsberg Automotive's parts are uniquely designed for your vehicle
- > All parts are produced and tested in our factories
- > All the parts are produced under OE specifications
- > Strong and ever-growing product portfolio
- > Easy installation
- > Environmentally friendly production

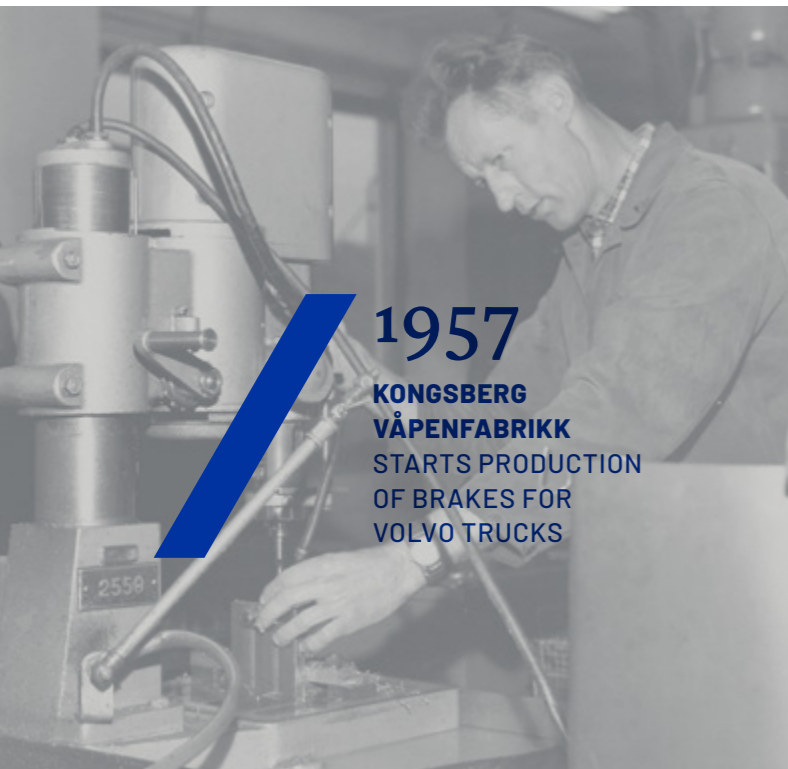

- > CLUTCH ACTUATION SYSTEMS
- > HYDRAULIC GEAR SHIFT SYSTEMS
- > GEAR SHIFT SYSTEMS
- > PEDALS
- > REPAIR KITS
- > SHIFTER CABLES
- > V-STAYS

A PLACE IN HISTORY

THE STORY OF KONGSBERG AUTOMOTIVE IS OF ORDINARY PEOPLE CREATING AN EXTRAORDINARY COMPANY.

Its origins trace back to the historic Norwegian defense contractor Kongsberg Våpenfabrikk. The first commercial auto parts to be produced and delivered were brakes and drive shafts for Volvo in the late 1950s. Since then, Kongsberg Automotive has developed from a Scandinavian auto parts supplier to a global leader in one of the most competitive and complex industries in the world.

WARNING

The consequence of using the wrong fluid on the hydraulic gear shifter is that both the o-ring and the lip-seal gets soft and swells. Below we have tested lip-seals belonging to GLA 626321AM that uses brake fluid and GLA 630388AM that uses mineral oil.

Please pay attention to the labelling that indicates type of fluid, both on the box and on the product.

The lip-seal made for brake fluid is exposed to mineral oil, Pentosin.

The seal gets soft and swells to nearly double size.

Important to use separate equipment for filling.

Recommended brake fluids: **DOT3, DOT4 & DOT5**

The lip-seal made for mineral oil is exposed to brake fluid, DOT4.

The seal gets soft and swells just a fraction, but enough to create leakage.

Important to use separate equipment for filling.

Recommended mineral oil: **Pentosin**
