

Kongsberg Automotive

Quality Policy

“Right from me, first time.”

Kongsberg Automotive provides world-class products to the global vehicle industry. Our mission is to be the global partner of choice for our customers, employees and stakeholders by providing advantageous solutions that enhance the driving experience.

We secure growth and create stakeholder value by:

- Partnering with the best customers and suppliers, attract the brightest talent and deliver outstanding results. We need to continuously improve our organization.
- Living our values. They must guide how we behave, how we approach daily tasks and how we make decisions

We assure our mission and purpose by:

- Developing employees' talents and competence
- Continuously improving by using Lean principles and related tools
- Performing the appropriate monitoring to assure the execution and conformity of our management system, production processes and products
- Continually improving our Business Management System to achieve business excellence
- Complying with the Kongsberg Automotive Code of Conduct and with statutory, regulatory and applicable requirements
- Utilizing risk-based thinking throughout our processes to address risks and opportunities
- Aiming for the ultimate goal of zero defects
